Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's amendments to the abstract, and response filed on 9/21/2009 are acknowledged and entered.

The drawings were received on 9/21/2009. These drawings are approved.

Applicants has cancelled claims 1-13, and added new claims 14-15. Therefore, claims 14-15 are currently pending and are under consideration in this Office Action.

Response to Arguments

Applicant's arguments with respect to claims 14-15 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Robertson (US 5,892,497).

As to claim 14, figure 12J of Robertson discloses an image display panel of the reflection type (col. 31, lines 18-22) comprising, in a multilayer structure: a first layer (1270a) including a periodic planar arrangement of a plurality of electrophoretic elements (balls 1271a), each of the plurality of electrophoretic elements (1235, fig. 12A) included in the first layer showing one of

Art Unit: 2629

an opaque black state (1273a) and a transparent state (1271a) in response to an input signal (col. 29, line 66 to col. 30, line 8);

a second layer (1279) including a periodic planar arrangement of a plurality of electrophoretic elements, each of the plurality of electrophoretic elements included in the second layer showing at least a first color state (Red) and a second color state (Blue) in response to an input signal, wherein an arrangement period of the electrophoretic elements included in the first layer (1271a) is smaller than an arrangement period of the electrophoretic elements included in the second layer (1271c).

As to claim 15, Robertson discloses the image display panel of the reflection type according to claim 14, wherein the second layer includes a first electrophoretic element and a second electrophoretic element, the first electrophoretic element having a green state and a red state, and the second electrophoretic element having a blue state (red, green, blue, figure 12J).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2629

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
